

Practice Expansion — Practitioner Opportunity

Hollowell Counseling | Ohio

Hollowell Counseling is a woman-owned private practice rooted in the belief that **the body is its own ecosystem**. Our work engages **body, mind, and spirit**, moving beyond talk alone to include **somatic awareness, movement, breath, creative expression, and relational presence** as essential parts of mental health care.

We are expanding and looking to add **one to two practitioners** as we grow into a **hybrid model**, offering **telehealth across Ohio** alongside **in-person work** held in **curated office and open-floor studio spaces**, including **warehouse and artist-loft environments** on the West Side of Cleveland (Lakewood, Rocky River, and Cleveland).

This setting is designed to support **embodied, creative, and experiential work** within a professionally held, trauma-informed, and ethically grounded practice.

Who This Is For

We are seeking **therapists and practitioners** whose work lives at the intersection of somatic, creative, and experiential care. This may include, but is not limited to:

- Somatic or embodied psychotherapists
- Movement-based or body-centered clinicians
- Breathwork or meditation-informed therapists
- Art therapists, expressive arts therapists, or creative practitioners
- Performance- or ritual-informed facilitators working within ethical scope
- Clinicians trained or interested in **Ketamine-Assisted Psychotherapy**

Work may be **individual or group-based**, depending on training, licensure, and scope.

This opportunity is well-suited for those interested in **building original programming**, including **groups, workshops, events, retreats, and thoughtfully held ceremonial or ritual offerings**, within a supported clinical and non-insurance framework.
